Professional Summary

Curious and impact-driven technologist with a strong inclination toward building intelligent systems that solve real-world problems. Deeply interested in Artificial Intelligence, healthcare innovation, and emerging technologies such as Quantum Computing. I focus on designing scalable, research-oriented solutions that combine theory with practical implementation. My approach emphasizes long-term vision, system-level thinking, and the pursuit of meaningful technological advancements that can create measurable societal impact.

Education

UPES <i>Master of Computer Applications (MCA)</i>	2025 – 2027 Dehradun, Uttarakhand
UPES <i>Bachelor of Computer Applications (BCA)</i>	2022 – 2025 Dehradun, Uttarakhand
The City Montessori School <i>CBSE Higher Secondary School (Class XII)</i>	2022 Basti, Uttar Pradesh
St. Basil's School <i>ICSE Secondary School (Class X)</i>	2020 Basti, Uttar Pradesh

Experience

IBM (Phemsoft) <i>Summer Intern</i>	May 2024 – Aug. 2024 Remote
- Developed a Deep Learning-based Quality Control System for automated defect detection in industrial components. - Applied CNNs for real-time image analysis, improving accuracy and reducing manual inspection effort.	
Rajiv Gandhi Institute of Petroleum Technology (RGIPT) <i>Intern</i>	Dec. 2024 – Jan. 2025 Amethi, India
- Developed deep learning models for image caption generation using CNNs and RNNs. - Optimized models for higher accuracy and contextual relevance in real-world applications.	
NIELIT (National Institute of Electronics & Information Technology) <i>Summer Intern</i>	May. 2025 – Jul. 2025 Gorakhpur, India
- Researched and explored applications of Artificial Intelligence and Deep Learning. - Gained hands-on experience with modern AI tools and neural network models.	
Portwol <i>Marketing Intern</i>	Jan. 2024 – Jun. 2024 Remote
- Designed and published digital posters and social media content to enhance brand visibility on Instagram. - Mentored team members on policies and best practices, improving workflow efficiency and consistency.	

Projects

Disaster Management & Human Detection System (RescueAI) <i>Under Paper Review</i>
- AI-based survivor detection system for earthquakes, floods, and fires using deep learning and computer vision. - Demonstrates strong potential in real-world emergency response; currently under paper review.
Osteoporosis Detection using X-ray T-Score Analysis <i>Research Project</i>
- Developed an AI model to detect osteoporosis from X-ray images with automated T-score estimation. - Utilized deep learning pipelines to support early diagnosis and reduce fracture risk.
Text-to-Website Generator <i>AI-Powered Development Tool</i>

- Built an automated system that converts plain text into fully functional, responsive websites.
- Uses LLMs and template engines for rapid prototyping and clean UI generation.

VedicEra – AI-Powered Ayurvedic Healthcare Platform

Full-Stack + AI Project

- Created an AI-driven platform for Ayurvedic diagnosis, doctor consultations, and wellness programs.
- Implemented using Flask, SQLAlchemy, custom LLMs, subscriptions, product ordering, and WebSocket video consults.

Diabetes Detection Using Physiological Signals

Research Project

- Designed an ML system to detect diabetes using ECG, PPG, and GSR signal analysis.
- Integrated signal processing and classification models to enable non-invasive early screening.

Technical Skills

Programming Languages: C, Python, Java, JavaScript, MySQL, HTML, CSS, React

Frameworks & Libraries: TensorFlow, PyTorch, Keras, Scikit-Learn, Pandas, NumPy, OpenCV, Librosa, FastAPI

Tools & Technologies: Weka, Wireshark, PostgreSQL, OpenAI API, Claude, Google Gemini, OpenSmile, Praat, FDLP, n8n

Concepts: Machine Learning (ML), Neural Networks, Generative AI, Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), Natural Language Processing (NLP), Web Scraping, APIs, Prompt Engineering, Computer Networks, DBMS, Operating Systems (OS)

Quantum Computing: Qiskit, Quantum Algorithms, Quantum Machine Learning (QML)

Accomplishments & Recognition

- Hold certificates for various courses from **Coursera** and **EDX**.
- Participated in the **AICTE Quantum Computing Faculty Development Program**.
- Participation in **MLTA 24** organized by **NIT Kurukshetra**.
- Drone Technology and Application Bootcamp – organized by **NIT Kurukshetra**.
- Participation in **Hackathon 8.0** organized by the CSI Student Chapter, UPES.
- Participation certificate in **Quantum Computing** organized by **IIT Kanpur**.
- Participation certificate in **AI/ML** organized by **IIT Roorkee**.
